**Option to purchase by the pallet available*

Coverage

When compared to real river rocks by weight, Rockafillers™ will cover 2.5 times more area. One cubic foot of River Rockafillers™ will cover 5-6 square feet of an area 2 inches deep.

PolyPebbles

Black

White

Grey

Tan

**Option to purchase by the case available*

Small PolyPebbles, which are often used in floral arrangements and water features, are designed to sink in water. The larger rocks, which are often used as top dressing, have been manufactured to be as light as possible for ease of use and transportation. Due to the lightweight nature of the larger rocks, they will not sink if submerged in water.

Coverage

Large Pebbles

- High-Density Coverage: approx 3' x 1' per bag
- Low-Density Coverage: approx 4' x 1' per bag

Small Pebbles

- High-Density Coverage: approx 9 sq inches per bag
- Low-Density Coverage: approx 1 sq ft per bag
