# Our Company Story

Many years ago our team saw the range of Artificial Plants on the market and to be honest they looked incredibly fake! Even worse than that, the plants were cracking, fading, and disintegrating after just a few uses.

Our team saw the need to design a range of realistic artificial plants that were engineered to withstand the harsh weather, we weren't going to settle for other plants on that market that just didn't last.

Since then, Designer Plants have worked with clients all around the globe to create and transform spaces with the highest quality artificial plants, green walls, and vertical gardens you can find.

With more than 100 years of combined experience in the industry, we live and breathe artificial plants.

Whether it be commercial spaces, large-scale developments, events, or smaller residential projects; Designer Plants will ensure that your green space is created with care and experience so that you have the confidence that you're getting the right product for your space and that it will last!

# Artificial Green Walls and Hedge Mats

Artificial Green Walls are the newest trend in landscaping and design.

With foliage that emulates nature you'd be forgiven for thinking these hedge mats were real.

Designed with the highest levels of UV protection your green wall is perfect for use indoors or outdoors by the pool while you sunbake.

You'll never have to worry about leaves in your pool ever again because Artificial Green Walls are maintenance free.

# Artificial Flower Stems

Artificial Flower Stems are versatile and perfect for so many spaces.

Choose your color and style to place a few in a vase for flowers that will never die.

Or you can use these flower stems to customize your own Artificial Vertical Garden, Green Wall, Luxe Green Wall or Vertical Garden Disc. Simply choose your color, add it to your chosen panel or disk and then create your very own design.

So your new green wall can be uniquely YOU!
